PRODUCTION SITE

A family business founded on expertise and quality. Since 1955.

Vosschemie GmbH is based in Uetersen, near Hamburg in Germany, and is an international, family-run company that has been a skilled partner and dependable systems supplier to industry, commerce and skilled trades since 1955. Backed by a history of continuous growth in the field of thermosetting materials, Vosschemie has become a globally leading manufacturer of polyester filling compounds thanks to brands such as Carsystem and Yachtcare.

**Midsized, independent, dependable.
That is what Vosschemie stands for.**
